SOLVING THE PUZZLE OF FIRE

# Structure Fires Capability Statement

Residential, commercial and industrial

**We at Fire Forensics are leading experts in fire and explosion investigation in Australia and abroad, and have offered our clients thorough and impartial fire investigation services for over 40 years.**

Our team of qualified and experienced specialists solve the puzzle of fire, providing an overall understanding of a fire or explosion event from the ignition through to the spread and development. From garden sheds to homes, offices, factories and warehouses, we break down where, how and why a fire started, what fuel and ignition source was involved and how the fire spread through the structure.

We uncover the cause and establish the truth of the incident, identifying whether the fire was started accidentally or deliberately. We're with you every step of the way, and can provide expert witness testimony and evidence in court where required, as well as expert findings on individual or corporate responsibility, legal liability, compliance with legislation and standards, and many other factors required by our clients.

Our professional and prompt system of investigation and reporting sets us apart in the industry, and we take pride in our exemplary standards of client services and scientific techniques. We aim to provide our clients with a comprehensive yet easy to understand report that explains the unique set of conditions in the house or business that led to the fire at hand. Through our thorough investigations, we uncover all available evidence to determine who is responsible or may be financially liable. We also analyse fire scenes for potential cost recovery where there are faulty appliances, deliberate acts or negligence.

We pride ourselves on our ability to communicate complex technical concepts into easy to understand event sequences for our clients and their staff, and ultimately judges and juries. Working thoroughly, lawfully and professionally, we are committed to solving the puzzle of fire for our clients with the highest levels of personal, legal and corporate integrity.
