SOLVING THE PUZZLE OF FIRE

Mining and Resource Sector

Capability Statement

We are leading experts in fire and explosion investigation in Australia and abroad, and our personnel have offered clients thorough and impartial fire investigation services for over 40 years.

We have expertise in fire and explosion investigation within all areas of the mining and resource industries. This includes incidents involving:

- SURFACE, UNDERGROUND AND MARINE OPERATIONS

- TRANSPORT AND MOBILE ASSETS
 - Heavy and light vehicles (on and off site)
 - Rail
 - Ships

- FIXED ASSETS
 - Buildings
 - Process plant
 - Switchgear, computer rooms etc.

- ENERGY SUPPLIES
 - Solar PV generation
 - Combustible liquid and gas storage and handling

- INJURIES AND DEATHS ARISING FROM FIRE, EXPLOSION, THERMAL INCIDENTS

We're with you every step of the way, and can provide expert witness testimony and evidence in court where required, as well as expert findings on individual or corporate responsibility, legal liability, compliance with legislation and standards, and many other factors required by our clients.

OUR ISO CERTIFICATIONS

In February 2022 we were certified as complying with two international standards, ISO 9001 (Quality Management System) and ISO 27001 (Information Security Management). These certifications give our clients confidence in the quality of our work whilst protecting their data by adhering to these internationally recognised standards.

ISO 9001 QUALITY MANAGEMENT SYSTEM

Being certified with ISO 9001 means we have taken steps to improve our operations and optimise the way we move into the future by having an internationally recognised quality management system and is found in only highly efficient organisations that make a commitment to continual improvement. We are excited to be moving into the future in a more efficient, professional manner by serving our clients with a product that will contribute to increase in its quality.

ISO 27001 INFORMATION SECURITY MANAGEMENT

Achieving the ISO 27001 means we have now been signed off by an independent authority to a high standard of data protection to assure the integrity of your data when you do business with us. We now have a certified information security management system and processes in place so we can be more protective of your data.

Our services are globally renowned, and we have investigated incidents and given expert evidence in numerous locations throughout Australasia, South East Asia, Europe and Africa.
